Prior to making a submission please read Heritage Victoria's Policy Guideline for Public Notice of Heritage Permit Applications and Submissions Received.

In considering a permit application the Executive Director, Heritage Victoria, considers matters set out under Section 101 of the Heritage Act 2017 (the Act), which includes all submissions received during the public notice period. Submissions received should relate to the cultural heritage significance of the place or object. Planning matters including amenity, overshadowing of non-heritage properties, noise, traffic and car parking are not matters considered in determining a permit under the Act.

Please note:

Submissions received will be treated as a public document and may be provided to persons with an interest in the heritage place or object, including the applicant. This will include your name and contact details.

The advertised permit will not be determined during the notice period.

All submitters will be notified when the permit application is determined and if any future permit amendment applications are received. Please note that where petitions are received only the submitter will be contacted.

Please outline your views about the permit application:

I oppose the demolition and development of both the Brick Pressing Shed and the Steam Engine House in the Brunswick Brickworks. Owning one of the heritage listed apartments in Pottery Court has enabled me to understand fully the value of preserving the heritage buildings.

The demolition of the two buildings will result in a negative, irreversible impact on the cultural heritage significance of the Brickworks.

Further, the area is arguably over developed with narrow streets, lack of parking and over crowded areas due to continuous expansion of dwelling numbers. I urge you to consider the impact of losing a beautiful heritage building with true Brunswick history to simply replace with more apartments to an already crowded area of the suburb.

The owners of said site have allowed the deterioration of the buildings in the hopes to be able to void heritage Victoria's influence for safety concerns and heritage - we must protect this site before it is too late! We still have the chance now to hold on to the iconic chimneys, the chutes, hoppers and presses, and the beautiful heritage and history of the brickworks - a destination all locals know simply as 'the brickworks'.

I urge you to please consider the damage of converting this vital piece of Brunswick into "just another" set of apartments.

Regards,  
Anneliese Martinu.
